Nebraska Certified Seed Wheat for Sale

- Cleaned and tested for germination and purity
- Double cleaned with large bottom screen and gravity table separation
- Wheat is priced per 50# unit in bulk. Add \$0.50 per unit for 50# bags or \$0.25 per unit in tote bags.

Volume discounts: 500+ units - \$0.50 per unit, 1,000+ units - \$0.75 per unit

Available Varieties

* information from 2004-2009 Clay County Dryland Wheat Variety Test Results (UNL)

New from UNL

Overland \$8.25 (per 50# unit)

Overland was released last year and has quickly become one of the best wheats for our area.

- * #2 yielding wheat at Clay Center
- Excellent dryland performance – outstanding yield
- Medium height semi-dwarf
- Very good straw strength
- Very good winter hardiness
- Medium Maturity
- Above average *Fusarium* head scab tolerance

2145

\$8.25 (per 50# unit)

- * #1 yielding wheat at Clay Center trials
- Outstanding when no-tilled into soybean stubble
- Good straw strength and lodging score
- Similar to 2137 but with better disease resistance
- Resistant to leaf rust, soil-borne mosaic virus and mod resistance to stem rust.
- Medium height
- Medium maturity

Wesley \$7.75 (per 50# unit)

- Highest yielding wheat at Clay Center in 2009
- * #3 yielding wheat at Clay Center trials ('04-'09)
- UNL recommended for irrigated or high intensity
- #1 in straw strength and lodging score
- Excellent tolerance to stripe rust.
- Moderately short height
- Moderately early maturing

Millennium \$7.25 (per 50# unit)

- Good straw strength and lodging score*
- Highest test weight of any public hard red variety (top 25 varieties)*
- Resistant to Hessian fly; mod resistant to stem rust
- Medium-tall, medium maturity

Variety	Clay Center Tests Avg. Yield '04-09
2145	66.2
Overland	64.9
Wesley	62.5
Postrock	60.7
Millennium	59.6

Custom Drilling and Rental Drill

We will once again be doing custom drilling. We just purchased a John Deere 1890 air seeder so we can now save you money by applying dry fertilizer instead of liquid. Custom drilling for this year will be \$17 per acre. We are also planning on having a John Deere 15' 1560 no-till drill with starter fertilizer available for rental this year for a cost of \$10 per acre (\$9 if not applying fertilizer). Contact us for more details.
